

Horizontal Pallet Strapping Machine

■ Easy Height Adjustment

Strapping height is quickly adjusted using the easily operated counterbalance that moves smoothly and effortlessly to the desired strap location.

■ User Friendly Operation

The innovative pendant switch allows operation of the machine from either side of the load while enabling the operator to control the feeding, tensioning, and sealing of the strap with one hand.

■ Increased Tension Capability

Under semi-auto mode, the maximum tension is 690N or 155lbf, while a maximum tension is set for 450N or 101lbf in auto mode to prevent unintended tensioning.

■ Increased Mobility

Featuring swivel-type urethane casters that allows for effortless maneuvering and greater mobile flexibility.

■ Shorter Downtime

Equipped with a brushless motor, the machine has fewer parts to maintain and can be used while charging, which eliminates the need for downtime.

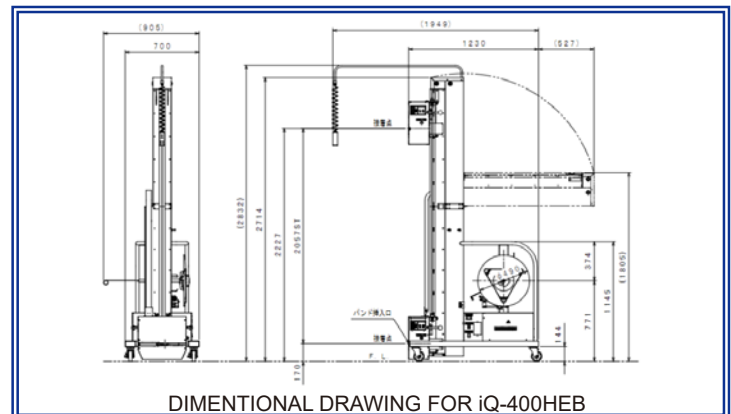

■ Energy Efficient

When eco mode is selected, the power to the heater will turn off automatically after idling for a certain period of time. In the battery model, the new 24V battery eliminates the need for an inverter, which results in energy saving.

■ Battery option is available as iQ-400HEB

iQ-400HE

Standard Specifications

Dimension	Width	1230 mm	48-3/8 in.
	Height	2832 mm	111-1/2 in.
	Depth	700 mm	27-1/2 in.
	Weight	180 kg	397 lbs.
Package Height		170 - 2227 mm	6-3/4 - 87-3/4 in.
Joint / Strap / Coil		heat seal / polypropylene ID 200 or 230 X W 200 mm	heat seal / polypropylene 8 in. X 8 in. or 9 in. X 8 in.
Strap		12, 15.5 mm	1/2, 5/8 in.
Strap Tension	Semi Auto Mode	Max. 690 N (70 kgf)	155 lbf
	Auto Mode	Max. 450 N (46 kgf)	101 lbf
Power Supply		100, 110, 120, 220, 230, 240V Single phase 50/60Hz 0.6 kVA
